## HOW DOES RIVERINA WATER CONNECT THE PROPERTY TO THE WATER SUPPLY SYSTEM?

The water meter will generally be located just inside the property boundary, provided there is a water main adjacent or nearby.

Check with your plumber to make sure they have obtained a plumbing permit from Riverina Water's plumbing inspectors, otherwise a Final Inspection Certificate cannot be issued by Riverina Water and this may lead to disconnection from the supply system.

The property owner must ensure reasonable and safe access to the water meter at all times, and not enclose the meter with excessive vegetation, brickwork, fencing and/or landscaping. The water meter must remain aboveground.
