

WATER FILLING STATION INSTRUCTIONS

(PLEASE ENSURE A COPY REMAINS IN TRUCK AT ALL TIMES)

- **Access to site.** Take care when approaching and entering the water filling station site. Pay particular attention to pedestrians and other motorists. Obey traffic rules.
- **Parking.** Position truck to allow safe and efficient access. Take care when stationary on the road side including entering and exiting the vehicle. Wear a hi-vis vest.
- **Hose Connection.** Use only a hose with Camlock fittings. Connect one end to the coupling on the side of the water filling station unit and the other end to the inlet point on the tank. *(For safety do not climb onto tanker)*
- **Pedestrian Safety.** Minimise obstruction of the footpath and take all safety precautions including the positioning of safety cones to prevent the risk of tripping hazards or injury to pedestrians.
- **Cabinet Door.** Use the small steel key provided to unlock the top section of the water filling station.
- **Water Flow.** Follow the operating instructions displayed on the screen interface. (As shown below)
 1. Hold iButton on reader for 3 seconds.
 2. Touch green icon to start flow.
 3. Water will start to dispense.
 4. Touch red icon once to stop flow.
(Shut down of water supply can take up to 20 seconds)
 5. Litres dispensed will be displayed.
 6. Please **close and lock door with key.**
- **Disconnection and Spillage.** Remove hose from water filling station and tank connections. Avoid spilling water.
- **Exit.** Take care exiting the water filling station site. Paying particular attention to pedestrians and other motorists.
